PART 1, FEBRUARY 1989

B. Charlton and T. E. Mandel: Tolerance to aggregated human IgG but not ovalbumin can be induced by concurrent administration of depleting or non-depleting anti-L3T4 monoclonal antibodies 1

P. M. Bartold, D. G. Harkin and L. P. Bignold: Proteoglycans synthesized by human polymorphonuclear leucocytes *in vitro* 9

I. Kotlarski, M. Pope, K. Doherty and S. R. Attridge: The *in vitro* proliferative response of lymphoid cells and mice infected with *Salmonella enteritidis* 11RX 19

A. Müllbacher, A. J. D. Bellett and R. T. Hla: The murine cellular immune response to adenovirus type 5 31

E. T. Thean and B-H. Toh: Production and characterization of murine monoclonal antibody to human α-lactalbumin 41

I. S. Misko, S. R. Burrows, C. Schmidt, C. J. Bishop, J. M. Ryan, J. A. Staples and D. J. Moss: T lymphocytes in infectious mononucleosis: Effect of IL-2 on the outgrowth of Epstein-Barr virus-infected B cells 49

G. D. Baxter, S. Kumar and M. F. Lavin: T cell receptor gene rearrangement and expression in ataxia-telangiectasia B lymphoblastoid cells 57

H. Zola, V. Furness, S. Barclay, H. Zowtyj, M. Smith, J. V. Melo, S. H. Neoh and J. Bradley: The p24 leucocyte membrane antigen: Modulation associated with lymphocyte activation and differentiation 63

D. Young, D. L. Emery and D. J. Stewart: Monoclonal antibodies defining immunogenic regions of pili from *Bacteroides nodosus* strains 198 (A1), 265 (H1) and 336 (F1) 71

Brief Communication:

M. T. Gillespie, M. Panaccio, I. F. C. McKenzie and N. J. Deacon: Phylogeny and structure of the Ly-2 and Ly-3 (CD8) complex 79

Brief Communication:

J. C. Travis, S. Thornton and L. Daignault: Effect of Santoquin on humoral immune function in mice: Lack of interference with selenium utilization 83

Brief Communication:

I. N. Nomikos, Y. Wang and K. J. Lafferty: Involvement of O_2 radicals in 'autoimmune' diabetes 85

PART 2, FEBRUARY 1989

J. Kanellos, I. F. C. McKenzie and G. A. Pictersz: Intratumour therapy of solid tumours with ricin–antibody conjugates 89

M. V. Agrez: A collagen matrix microassay for use in tumour–stromal cell co-cultures 101

M. A. Skinner, L. Moffatt and J. Marbrook: Development of thymocytes in organ culture: Migrant cells with natural killer cell characteristics 107

F. G. Monroy, J. H. Adams, I. J. East and C. Dobson: Excretory–secretory antigens from adult *Nematospiroides dubius* 115

H. S. Warren: Resting (IL-2 non-responsive) precursors of human T cell receptor γδ-positive cells (TCR1 cells) are activated by a two signal process 121

I. Bertoncello, S. H. Bartelmez, T. R. Bradley and G. S. Hodgson: Changes in cell surface antigen expression during murine bone marrow cell regeneration *in vivo* and proliferation *in vitro* 127

L. Carter, P. J. Barrington and G. D. F. Jackson: Antibody responses in the liver and bile of rats injected with horse erythrocytes 135

C. K. Dimmock, W. H. Ward and K. F. Trueman: Lymphocyte subpopulations in sheep during the early stage of experimental infection with bovine leukaemia virus 141

Brief Communication:

J. H. Pope, F. Bisshop, B. McRandle, J. Blok, C. W. Schmidt and R. J. Kemp: The value of MLA 144 culture fluid for the isolation of human immunodeficiency virus 147

Letters to the Editor 151

PART 3, JUNE 1989

A. G. Cummins, G. H. Munro, H. R. P. Miller and A. Ferguson: Effect of cyclosporin A treatment on the enteropathy of graft-versus-host reaction in the rat: A quantitative study of intestinal morphology, epithelial cell kinetics and mucosal immune activity 153

D. Keast, N. Sheppard and D. T. Nguyen: Adjuvant activity of respirable iron ore dust 161

T. C. Sorrell, C. P. Rochester, F. N. Breen and M. Müller: Eicosanoids produced during interactions between *Pseudomonas aeruginosa* and alveolar macrophages are species-dependent 169

V. K. Vinayak, R. Khanna and K. Kum: Sequential changes of lamina propria immunogloblin-containing cells in immune intact and immunosuppressed mice infected with *Giardia lamblia* 177

P-X. Xing, J. J. Tjandra, S. A. Stacker, J. G. Teh, C. H. Thompson, P. J. McLaughlin and I. F. C. McKenzie: Monoclonal antibodies reactive with mucin expressed in breast cancer 183

S. C. L. Koh, R. Yuen, O. A. C. Viegas, S. E. Chua, B. L. Ng, D. K. Sen and S. S. Ratnam: A plasmin generation method for the determination of tissue plasminogen activator (t-PA) activity in blood 197

Brief Communication:

B. Rolfe, K. Quinn, S. Athanasas, A. Cavanagh and H. Morton: Genetically-restricted effector molecules released by human lymphocytes in response to early pregnancy factor 205

PART 4, AUGUST 1989

D. M. Radomska, A. Osiecka and J. Malejczyk: Natural cell-mediated cytotoxicity against syngeneic rat chondrocytes originating from different types of cartilage 209

S. J. McClure, W. R. Hein, K. Yamaguchi, L. Dudler, M.-F. Beya and M. Miyasaka: Ontogeny, morphology and tissue distribution of a unique subset of $CD4^{-}CD8^{-}$ sheep T lymphocytes 215

S. J. McClure and W. R. Hein: Functional characteristics of 197^{+} $CD4^{-}CD8^{-}$ sheep T lymphocytes: Expansion and differentiation of peripheral T cells 223

H. Zola, B. X. Mantzioris, J. Webster and F. E. Kette: Circulating human T and B lymphocytes express the p55 interleukin-2 receptor molecule (TAC, CD25) 233

Y. C. Smart, K. L. Stevenson, R. F. Thorne, W. D. Thomas, L. H. Hsu and R.C. Burton: Expression of natural killer (NK) cell-specific alloantigens on a mouse NK-like cell line 239

D. A. Hume and Y. M. Denkins: Activation of macrophages to express cytocidal activity correlates with inhibition of their responsiveness to macrophage colony-stimulating factor (CSF-1): Involvement of a pertussis toxin-sensitive reaction 243

G. Mayrhofer and L. D. J. Spargo: Subcellular distribution of class II major histocompatibility antigens in enterocytes of the human and rat small intestine 251

E. C. Jazwinska, H. Dunckley, P. A. Gatenby and S. W. Serjeantson: Gm allogenotype distribution and lack of HLA-DR Gm interaction in SLE and CREST/PSS 261

Brief Communication

R. Lumb, P. S. Smith, R. Davies, P. J. O'Donoghue, H. M. Atkinson and J. A. Lanser: Localization of a 23 000 MW antigen of *Cryptosporidium* by immunoelectron microscopy 267

PART 5, OCTOBER 1989

C. Hicks, S. N. Breit and R. Penny: Response of microvascular endothelial cells to biological response modifiers 271

D. F. J. Purcell, N. J. Deacon and I. F. C. McKenzie: The human non-lineage antigen CD46 (HuLy-m5) and primate retroviral gp70 molecules share protein-defined antigenic determinants 279

W. A. Sewell and P. Andrews: Inhibition of lymphocyte circulation in mice by pertussis toxin 291

K. Hamano, M. Ohmi, K. Esato and T. Fukumoto: Effect of donor specific transfusion (DST) is restricted to the rat combination used and closely related with alloantibody in heart transplantation 297

R. C. Burton, Y. C. Smart, R. Thorn and H. J. Winn: Studies on natural killer (NK) cells IV NK-3·1: A new NK cell specific alloantigen 303

E. S. Didier, S. Fan, E. Wheeler and W. A. F. Tompkins: Phosphorylation of cytoskeleton-associated proteins, pp58 and pp60, in tumouricidal murine peritoneal macrophages 311

I. C. Kowanko, E. J. Bates and A. Ferrante: Mechanisms of human neutrophil-mediated cartilage damage *in vitro*: The role of lysosomal enzymes, hydrogen peroxide and hypochlorous acid 321

M. E. Andrew, B. E. H. Coupar and D. B. Boyle: Humoral and cell-mediated immune responses to recombinant vaccinia viruses in mice 331

Brief Communication:

M. E. Andrew: Protective efficacy of a recombinant vaccinia virus in vaccinia-immune mice 339

PART 6, DECEMBER 1989

C. I. Brodskyn, A. M. M. Silva, H. A. Takehara and I. Mota: IgG subclasses responsible for immune clearance in mice infected with *Trypanosoma cruzi* 343

J. M. Whitelock, R. L. O'Grady and J. G. Lyons: Immunolocalization of collagenase in neoplastic epithelial cells 349

T. J. Venaille, A. H. W. Mendis, A. Warton, L. Walker, J. M. Papadimitriou and B. W. S. Robinson: Study of human epithelial cell detachment and damage: Development of a model 359

A. J. Husband and V. L. Clifton: Role of intestinal immunization in urinary tract defence 371

S. R. Cole, G. W. Kriek, R. M. Hope and L. K. Ashman: Transfection of genes for human cell surface antigens identified by monoclonal antibodies 377

S. Spisani, R. Gavioli, A. L. Giuliani and S. Traniello: Triggering of neutrophil cytotoxicity against an antibody-coated tumour target by TPA 385

S. O. Wawryk, E. Salvaris, M. S. Sandrin and A. W. Boyd: Functional studies of stable L cell transfectants expressing intercellular adhesion molecule 1 [ICAM-1] 391

L. A. Dent, L. K. Spencer, S. Attridge and J. J. Finlay-Jones: Differences in the phenotypes of cells mediating anti-tumour immunity at various stages of tumour progression in mice 403

Y. Liu and A. Müllbacher: The generation and activation of memory class I MHC restricted cytotoxic T cell responses to influenza A virus *in vivo* do not require $CD4^+$ T cells 413

V. E. Reeve, G. E. Greenoak, P. J. Canfield, C. Boehm-Wilcox, P. A. Tilbrook, J. K. Kulski and C. H. Gallagher: Enhancement of u.v.-induced carcinogenesis in the hairless mouse by inoculation with cell-free extracts of skin tumours 421

Brief Communications:

M. Panaccio, M. T. Gillespie, I. F. C. McKenzie and N. J. Deacon: Murine Ly-3 restriction fragment length polymorphism and transcript size differences 429

F. J. Kos: Augmentation of recombinant interleukin-2-dependent murine macrophage-mediated tumour cytotoxicity by recombinant tumour necrosis factor-α 433
